**SECTION 3. Tax Levy**

There is hereby levied the following rates of Ad Valorem Tax on each one hundred dollars (\$100.00) valuation of taxable property, as listed for taxes as of January 1, 2010 for the purpose of raising the revenue from current year's property tax, as set forth in the foregoing estimate of revenue, and in order to finance the foregoing appropriation, to wit:

General Fund

(For the expense incident to the proper government of the Town of Harrisburg)

- \$ 0.125
- \$ 0.075 (Fire)

The estimated Ad Valorem Tax income is based upon a 96% collection rate of the above Tax rates as applied to the valuation of \$1,568,437,855 less statutory exemptions plus increased State assisted collection activities.

**SECTION 4.** Appropriations hereinabove authorized and made shall have the amounts of the unearned portion of contracts at June 30, 2010 added to each appropriation as it applied in order to properly account for the payment against the fiscal year in which it was paid.

**SECTION 5.** The Town Administrator is hereby authorized to make budget amendments as may be required within each fund as long as the total appropriation for each fund does not change and contingency funds are not utilized.

**SECTION 6.** Copies of this ordinance shall be furnished to the Finance Director and Finance and Administration Department, to be kept on file by her, for her direction in the disbursement of Town funds. No purchases or budget revisions shall be made until reviewed and pre-audited by the Finance Director.

**WATER AND SEWER:**

*Water and sewer charges shall be as authorized by Code Sections 50.44, 51.30 and 51.31, of the Town Code of Ordinances*

**WATER RATES**

Monthly water rates consist of two components: a monthly service charge and a water commodity (volume) charge.

Water Service Charge - This charge recovers costs related to certain direct and indirect expenses, system operation and maintenance and capital costs associated with supplying water to the customer's property. Applicable to all metered water accounts, independent of the quantity of water consumed, the monthly charge is based on meter size as follows:

Meter Size (in)	Inside Town Limits		Outside Town Limits	
	Residential	Commercial	Residential	Commercial
5/8	\$13.94	\$23.03	\$22.17	\$58.60
1	\$34.85	\$57.57	\$55.43	\$146.51
1-1/2	\$69.70	\$115.13	\$110.87	\$293.02
2	\$111.52	\$184.21	\$177.39	\$468.83
3	\$209.10	\$345.40	\$332.60	\$879.06
4	\$696.99	\$1,151.34	\$1,108.66	\$2,930.21
6	\$1,393.97	\$2,302.67	\$2,217.33	\$5,860.42
8	\$3,484.94	\$5,756.68	\$5,543.31	\$14,651.04

Irrigation Service Charge - *In accordance with State law, all new in-ground irrigation systems installed on or after July 1, 2009 and supplied by a public drinking water system are required to have a separate meter to measure the volume of water used through the irrigation system.*

This charge recovers costs related to certain direct and indirect expenses, system operation and maintenance and capital costs associated with supplying water for irrigation purposes to the customer's property. Applicable to all metered irrigation accounts, independent of the quantity of water consumed, the monthly charge is based on meter size as follows:

Meter Size (in)	Inside Town Limits		Outside Town Limits	
	Residential	Commercial	Residential	Commercial
5/8	\$27.88	\$46.05	\$44.35	\$117.21
1	\$69.70	\$115.13	\$110.87	\$293.02
1-1/2	\$139.40	\$230.27	\$221.73	\$586.04
2	\$223.04	\$368.43	\$354.77	\$937.67
3	\$418.19	\$690.80	\$665.20	\$1,758.12
4	\$1,393.97	\$2,302.67	\$2,217.33	\$5,860.42
6	\$2,787.95	\$4,605.34	\$4,434.65	\$11,720.83
8	\$6,969.87	\$11,513.36	\$11,086.63	\$29,302.08

Note: Monthly service charges for compound meter arrangements are based on the largest meter in the grouping.

Water Commodity Charge - This charge recovers the direct and indirect costs of water production, treatment and distribution. This charge is applicable to all water accounts based on meter readings of water consumed. Metered monthly consumption will be billed in thousand gallon increments.

Usage (gal)	Inside Town Limits			Outside Town Limits		
	Residential	Commercial	Irrigation	Residential	Commercial	Irrigation
0-10,000	\$3.40	\$3.40	\$6.80	\$3.40	\$3.40	\$6.80
>10,000	\$6.80	\$3.40	\$6.80	\$6.80	\$3.40	\$6.80

#### TEMPORARY HYDRANT METER CHARGE

Service from a fire hydrant for construction purposes is subject to priority use of such hydrant for fire protection. Temporary hydrant meters may be used by a customer at a single location for a period not to exceed 60 days, subject to compliance with water conservation standards and other applicable law. For periods of use longer than 60 days, the customer must purchase a hydrant meter in accordance with Town of Harrisburg standards. Subject to availability of inventoried hydrant meters, a \$200.00 service charge, payable in advance, shall be collected for setting and removing the meter. In addition, a security deposit of \$1,000 shall be required.

Monthly billings for temporary hydrant meters consist of two charges: (1) a commercial service charge for that size meter, and (2) the commercial commodity charge based on monthly readings of the meter. When the hydrant meter is returned undamaged, the security deposit shall be applied to the final bill and any credit balance will be refunded within thirty (30) days.

## WATER SYSTEM DEVELOPMENT CHARGES

System Development Charges are calculated to recover a portion of the capital costs of providing water system facility capacity. The charge is applicable to each new connection to a water main, regardless of who may have paid for the installation of the water main to which the connection is to be made. Multi-unit facilities will be charged based on the equivalent number of residential meters.

Meter Size (in)	System Development charge
5/8	\$910.00
1	\$2,275.00
1-1/2	\$4,549.00
2	\$7,278.00
3	\$13,647.00
4	\$45,490.00
6	\$90,981.00
8	\$227,452.00

Same System Development Charges apply for Irrigation-Only accounts.

A person or party completing a development or re-development project may be eligible to request and receive a credit on the System Development Charges due if their project directly results in the permanent abandonment of previously existing water meters which were connected to residences, buildings or facilities connected to and having a documented demand on the Town's water system.

If the Town determines that a credit is due, the amount of the credit shall be based on the current System Development Charges that would apply to the size water meters that are permanently abandoned as a direct result of the project. However, the credit due shall not exceed the amount of the System Development Charges that would otherwise apply to the development or re-development project.

If an existing water meter is removed from service and/or is replaced with a smaller meter, the Town will not issue any credit or refund to the customer for any previously paid System Development Charges.

System Development Charge credits are not transferrable to any other project or property.

## WATER SERVICE AND METER INSTALLATION CHARGES

This charge is to recover costs of extending service from the Town's distribution system to individual properties, and includes the installation of a service connection from the water main to the meter and the setting of the meter to serve the customer's premises, subject to satisfactory easement or license being provided by the applicant. Where a suitable stub-out for service has

been made and is available, only the meter charge shall apply. Complete water service installation charges are as follows:

Meter Size (in)	Meter Charge	Installation Charge
5/8	\$209.00	\$600.00
1	\$329.00	\$840.00
1-1/2	\$517.00	\$1,080.00
2	\$693.00	\$1,740.00

For 3-inch and larger meters, the applicant shall be responsible for providing a meter box or vault constructed to Town standards. All meters, regardless of size, shall be purchased from the Town at cost plus 10%. A \$100.00 delivery fee for 3-inch and larger meters shall be applied.

A remote read 5/8" detector meter shall be required on all private fire protection service connections. The remote read detector meter shall be purchased from the Town and installed by the applicant.

#### WATER MAIN TAPPING FEE

This charge is for making a tap into a Town water main. The tap fee shall be paid in advance of the Town performing the work, with a minimum of 48 hours advance notice given to the Town.

The applicant shall be responsible for opening the ditch, providing adequate working clearance at the point of tap, adequately shoring the trench sidewalls, dewatering and such other associated activities as may be needed to provide a suitable and safe condition for the Town's personnel to complete the tap. Additionally, the applicant shall be responsible for providing an appropriate size tapping sleeve and tapping valve, and a backhoe or similar device shall be available on-site for lowering the tapping unit into the ditch line. All permits, bonds and paving shall be the responsibility of the applicant. The charge shall be for time and equipment plus an allowance for overhead, but not less than \$350.00.

The base fee noted above includes one (1) site visit by the Town to determine if the applicant is ready for the Town to perform the tap. A re-inspection fee of \$100.00 will be charged for each additional site visit required to determine if the water main is accessible and all required material and safety measures are in place. The tap will not be performed until any applicable re-inspection fees are paid in full.

#### HYDRAULIC FIRE FLOW TESTING

This charge is to recover the cost of hydrant 'fire flow' testing of the water distribution system. Test results provide data to developers and engineers to determine available flows and pressures in the systems they are designing for new developments.

\$225.00 per test

## PRIVATE FIRE PROTECTION SERVICE CHARGES

By maintaining adequate water distribution lines and water pressure, the Town provides private fire protection service to special water customers. All customers receiving benefit from special installed fire lines, fire hydrants or sprinkler systems shall be subject to the following monthly charges for private fire protection service:

Size (in)	Fee
<4	\$52.00
4	\$52.00
6	\$95.00
8	\$145.00
10	\$217.00
12	\$334.00

## SEWER RATES

Monthly sewer rates consist of two components: a monthly service charge and a sewer commodity (volume) charge.

Sewer Service Charges - This charge recovers costs related to certain direct and indirect expenses, system operation and maintenance and capital costs associated with supplying sewer collection service to the customer's property. Applicable to all sewer accounts, regardless of whether or not there is a commodity charge, the monthly service charge is based on the size of the meter upon which sewer usage is calculated as follows:

Meter Size (in)	Inside Town Limits		Outside Town Limits	
	Residential	Commercial	Residential	Commercial
5/8	\$13.99	\$17.36	\$23.43	\$32.03
1	\$34.98	\$43.40	\$58.57	\$80.07
1-1/2	\$69.95	\$86.79	\$117.14	\$160.14
2	\$111.92	\$138.87	\$187.43	\$256.23
3	\$209.85	\$260.37	\$351.43	\$480.43
4	\$699.51	\$867.91	\$1,171.43	\$1,601.44
6	\$1,399.02	\$1,735.82	\$2,342.87	\$3,202.87
8	\$3,497.56	\$4,339.56	\$5,857.17	\$8,007.18

The monthly sewer service charge shall apply to any meter(s) used to directly or indirectly measure the volume of wastewater discharged from a customer's premises, regardless of whether the water source to the customer is from the Town's drinking water or a non-Town water source including but not limited to harvested rainwater or groundwater.

Sewer Only Account Service Charges - This charge recovers costs related to certain direct and indirect expenses, system operation and maintenance and capital costs associated with supplying sewer collection service to the customer's property. Applicable to all sewer accounts where water service is not provided, the monthly service charge is based on the estimated size of the meter upon which sewer usage would be calculated:

Meter Size (in)	Inside Town Limits	Outside Town Limits
	Residential	Residential
5/8	\$13.99	\$26.51
1	\$34.98	\$66.28
1-1/2	\$69.95	\$132.57
2	\$111.92	\$212.11
3	\$209.85	\$397.70
4	\$699.51	\$1,325.68
6	\$1,399.02	\$2,651.37
8	\$3,497.56	\$6,628.41

Sewer Commodity Charges - This charge is calculated to recover the direct and indirect costs of wastewater collection, transmission and treatment. Metered monthly consumption will be billed in thousand gallons. This charge is applicable to all accounts receiving sewer service based on the water meter reading, sewer meter reading if applicable or estimated volume of discharge as determined by the Town that will in no case be less than 5,000 gallons. The sewer commodity charge is applicable to all customer's discharging wastewater into the Town sewer system, regardless of whether or not that discharge results from the customer's use of the Town's drinking water or use of a non-Town water source, including but not limited to harvested rainwater or groundwater.

Usage (gal)	Inside Town Limits			Outside Town Limits		
	Residential	Commercial	Sewer Only	Residential	Commercial	Sewer Only
0-10,000	\$1.46	\$1.46	\$1.46	\$1.46	\$1.46	\$1.46
>10,000	\$2.92	\$1.46	N/A	\$2.92	\$1.46	N/A

## SEWER SYSTEM DEVELOPMENT CHARGES

System Development Charges are calculated to recover a portion of the capital costs of providing sewer system facility capacity. The charge is applicable to each new connection to a sewer main, regardless of who may have paid for the installation of the sewer main to which the connection is to be made. Multi-unit facilities will be charged based on the equivalent number of residential services.

Meter Size (in)	System Development charge
5/8	\$910.00
1	\$2,275.00
1-1/2	\$4,549.00
2	\$7,278.00
3	\$13,647.00
4	\$45,490.00
6	\$90,981.00
8	\$227,452.00

A person or party completing a development or re-development project may be eligible to request and receive a credit on the System Development Charges due if their project directly results in the permanent abandonment of previously existing sewer services which were connected to residences, buildings or facilities connected to and having a documented demand on the Town's sewer system.

If the Town determines that a credit is due, the amount of the credit shall be based on the current System Development Charges that would apply to the size water meters that are permanently abandoned as a direct result of the project. However, the credit due shall not exceed the amount of the System Development Charges that would otherwise apply to the development or re-development project.

If an existing water/sewer meter is removed from service and/or is replaced with a smaller meter, the Town will not issue any credit or refund to the customer for any previously paid System Development Charges.

System Development Charge credits are not transferrable to any other project or property.

#### SEWER SERVICE INSTALLATION CHARGES

This charge is to recover costs of extending service from the Town's collection system to individual properties, and includes the installation of a service connection from the sewer main to the edge of the street right-of-way to serve the customer's premises. Sewer service installation charges are as follows:

Size (in)	Installation Charge
4	\$2,000.00

For 6-inch and larger services, the applicant will be charged on a time, equipment and materials basis.

**SEWER TAP CHARGE**

This charge is for making a tap of the applicant's private sewer lateral into the main sewer line or sewer manhole of the Town. The tap fee must be paid in advance of the Town performing the work, with a minimum of 48 hours advance notice given to the Town.

The applicant shall be responsible for opening the ditch, providing adequate working clearance at the point of tap, adequately shoring the trench sidewalls, dewatering and such other associated activities as may be needed to provide a suitable and safe condition for the Town to connect the service lateral of the applicant into the facilities of the Town. The minimum charge is based on a standard 4" service tap to the sewer line. All lines 6" in diameter and larger must be tapped into a manhole. All permits, bonds and pavement repairs are the responsibility of the applicant.

The charge shall be for time and equipment plus an allowance for overhead, but not less than \$320.00. The base fee noted above includes one (1) site visit by THE TOWN to determine if the applicant is ready for THE TOWN to perform the tap. A re-inspection fee of \$100.00 will be charged for each additional site visit required to determine if the sewer main is accessible and all required material and safety measures are in place. The tap will not be performed until any applicable re-inspection fees are paid in full.

**STORMWATER CHARGE**

The Equivalent Residential Unit (ERU) for the Town is 3,723 (square feet of impervious area per lot). There are 12,081,951 square feet of non-residential impervious area within the Town limits. Therefore, there are an equivalent 3,245 ERU's resulting from this non-residential impervious area.
